Welcome to SORTEE 😀

SOCIETY FOR OPEN, RELIABLE, & TRANSPARENT
ECOLOGY & EVOLUTIONARY BIOLOGY

What is SORTEE?

A scientific society since December 2020

SOCIETY FOR OPEN, RELIABLE, AND TRANSPARENT ECOLOGY AND EVOLUTIONARY BIOLOGY (SORTEE)

SORTEE is a service organization that brings together researchers working to improve reliability and transparency through cultural and institutional changes in ecology, evolutionary biology, and related fields broadly defined. Anyone interested in improving research in these disciplines is welcome to join, regardless of experience. The society is international in scope, membership, and objectives.

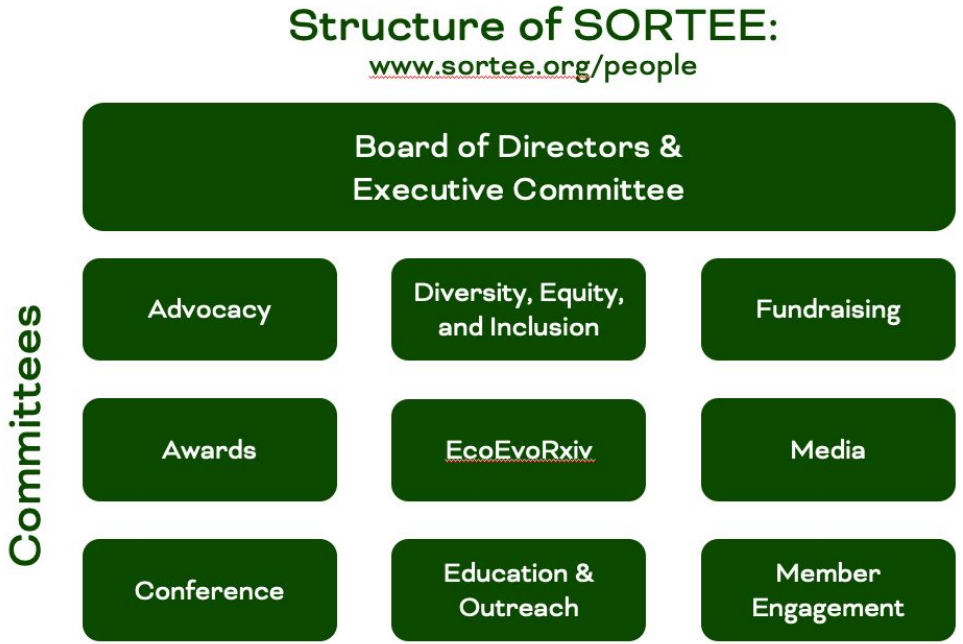

What is SORTEE?

- ❑ Community of people interested in open science in ecology, evolutionary biology, and related fields
- ❑ Supports cultural and institutional changes to make science more reliable and transparent

What is SORTEE doing?

Diverse activities and approaches:

- Annual conference
- Monthly workshops and seminars https://sortee.org/other_events/
- EcoEvoRxiv preprint server https://ecoevorxiv.org/
- Active Slack workspace
- SORTEE awards https://sortee.org/awards/
- Code club https://sortee.org/code_club/
- …and more!

What are the benefits of joining SORTEE?

- Free access to:
  - Annual conference
  - Monthly workshop and webinars https://www.sortee.org/other_events/
  - Code club https://sortee.org/code_club/
- Join an active Slack workspace, all about how to make science more reliable and inclusive:
  - Keep yourself up to date with new publications, developments, seminars and workshops
  - Find job opportunities
  - Ask for help on any subject
  - Find collaborators on your projects
- Be part of a strong and supportive community of researchers sharing similar values
- Support SORTEE and its goals

➔ Help move science toward reliability, transparency, inclusivity and care for the environment

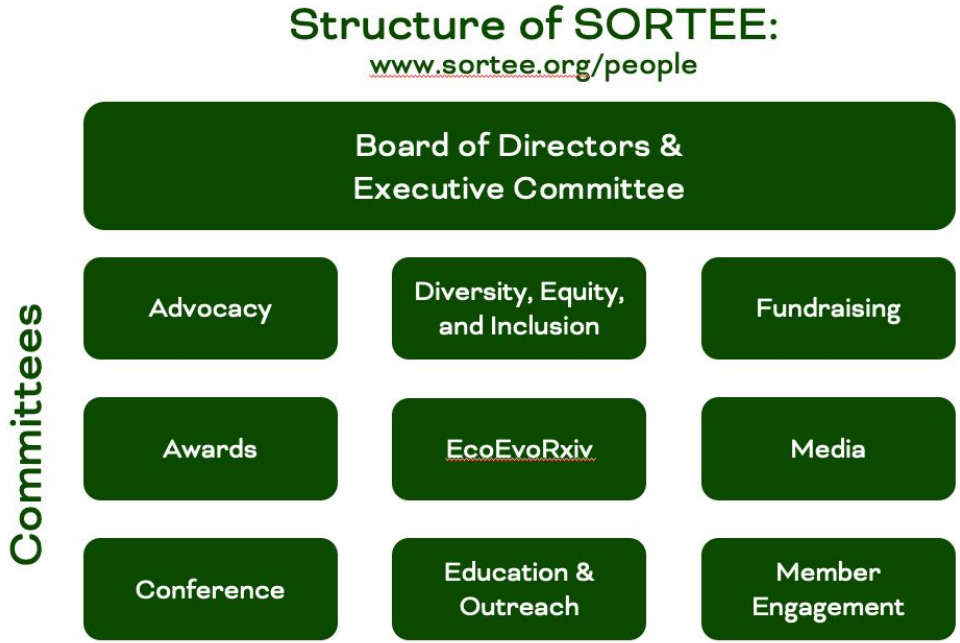

What is it like to get involved in SORTEE?

You can volunteer to:

- Join the Board of Directors
- Be a member of one of the committees
- Serve as a committee chair

A meeting once a month

Light work unless you are chair of a committee

Nominations for 2027 SORTEE Volunteers

➔ You can be part of a committee whatever your level of experience! Only your enthusiasm and a bit of time is needed

Let’s chat! Conversation starters

- ➔ Where are you joining from, and what time is it there right now?
- ➔ Describe your study system or research question in one sentence.

- ➔ How did you first come across open science or SORTEE?
- ➔ Which open practice have you tried – preregistration, sharing code/data, preprints? How did it go?
- ➔ What makes open science hard as a student in your lab or institution?
- ➔ One tool or habit that made your workflow more reproducible?
- ➔ What would you want from SORTEE as an new researcher?
